

Molson Coors to trim staff by outsourcing IT work

Molson Coors Brewing Co. has announced plans to outsource technology work to Hewlett-Packard Co., resulting in job cuts of about 4% of its global work force, or 390 jobs.

The cuts will be in HR, information technology and finance in all three operating divisions: Coors Brewing Co. in Golden, Coors Brewers Ltd. in England and Molson Inc. in Toronto.

Molson Coors spokeswoman Kabira Hatland said the cuts are part of an effort to save \$250 million over three years. The work will go to Hewlett-Packard employees in Canada, Costa Rica, India, Puerto Rico and Poland.

Note: HR functions are increasingly part of the trend to outsource work.
